

13th INTERNATIONAL SYMPOSIUM ON THE SYNTHESIS AND APPLICATIONS OF ISOTOPES AND ISOTOPICALLY LABELLED COMPOUNDS

Prague, Czech Republic, June 4th-7th 2018

Sponsorship Guidelines

1. Introduction

The International Isotope Symposium is organized by International Isotope Society (IIS) every three years as a meeting of representatives from both academia and industry working in the fascinating area of isotope chemistry. Throughout its 34 years history the conference has always been an excellent platform for scientific exchange and social contacts.

To keep this internationally renowned conference on a high scientific level with invited speakers from academia and industry and to enable participation of students we would like to ask you to join us in financial support for this meeting.

Your support to this International Symposium (which under some conditions may be even tax-deductible) is essential for maintaining a high standard of science at this meeting where you will have the opportunity to broadly present your company and maintain and develop new customer relationships. Providing the “promotional services” may be more favourable than “donation” for you we may provide you with an invoice.

Additionally if your company is an exhibitor as a service provider in the field of isotope chemistry you will have the unique opportunity to maintain and improve the contacts with many of your customers and take advantage of high level scientific presentations and discussions. Your kind donation will enable us to bring more participants to this meeting and give your company the chance to meet more potential clients.

2. Sponsorship packages

These sponsorships enable your company or organization to increase their corporate or brand visibility with 13th IIS International Symposium delegates from around the world.
